

CRESTCHEM LIMITED

SUSTANAIBILITY POLICY AT CRESTCHEM LIMITED

1. INTRODUCTION

Sustainability management at Crestchem Limited is all about proper understanding at all levels of operation that it is the development that meets the needs of the present without compromising the abilities of future generation to meet their own needs. It goes beyond economic, and legal motives, which understands the Ethical, Ecological and Economic impact of our business and works towards being a responsible organization by implementing the said triple 'E' bottom line as part of our company's overall performance management practices. This policy defines the framework for Sustainability at Crestchem Limited and provides a governing platform for Sustainability work streams to create long lasting value for business, environment and society at large.

2. SCOPE

This policy applies to all levels of the organization across Crestchem Limited facilities excluding Sales and Client Offices.

3. VISION

To maintain equilibrium between filing and draining in a way that the system would remain almost steady by sustainable business practices and reducing any adverse environmental, social or economic impact on business or society.

4. SUSTAINABILITY COMMITMENTS

Our company will constantly aspire to leave behind handling of each issue as standalone issue and to adopt system thinking by identify relevant and material sustainability issues and develop comprehensive sustainability strategies with goals, targets, mitigation and adaptation action plans to address them under the aegis of our board.

5. RESULTS AND OUTCOMES

To understand and implement globally accepted practices to quantify the extent of equilibrium achieved or in process.
